

An example of an innovative learning space we are delivering for students across NSW

Dapto Public School

Project update

April 2019

Investing in our schools

The NSW Government is investing \$6 billion over the next four years to deliver more than 170 new and upgraded schools to support communities across NSW. In addition, a record \$1.3 billion is being spent on school maintenance over four years. This is the largest investment in public education infrastructure in the history of NSW.

Dapto Public School

A project is underway at Dapto Public School to deliver a new building that provides 20 innovative learning spaces, associated practical activity spaces, and an extension to the existing library and administration facilities.

Planning progress

Concept design is now complete and we continue to work closely with school stakeholders through schematic design. We anticipate schematic design to be endorsed by April 2019.

Next steps

Following final endorsement of the schematic design, construction tender documentation will commence.

Information sessions

For more information on the project and a chance to speak to the project team, please attend the following drop-in information sessions:

Date: Wednesday 8 May 2019

Time: 2pm - 3.30pm and 5pm - 7pm

Location: Dapto Public School hall.

Frequently asked questions

Why is Dapto Public School being upgraded?

The upgrade to Dapto Public School will provide students with innovative learning environments and cater for future growth in the area.

What does the Dapto Public School upgrade include?

The upgraded Dapto Public School includes a new building that will deliver 20 flexible innovative learning spaces, and an expansion to the existing administration facilities (Block A) and library facilities (Block D).

What is an innovative learning space?

Innovative learning spaces will:

- be adaptable to accommodate small or large groups
- include learning environments with flexible, adaptable spaces that help students use modern technology, while working independently and in groups
- adapt to changing technologies to meet the needs of evolving teaching techniques.

What phase is the project in?

The project is currently in the design phase which will be completed when schematic design is endorsed.

Will students be relocated during the upgrades?

Students will not be required to relocate during the upgrade.

Will the demountables be removed?

Yes, the demountables will be removed when the project is completed.

When will construction commence?

Construction works to upgrade the school are scheduled to commence late 2019 for a duration of approximately 15 months.

When will the project be completed?

The upgrade to Dapto Public School is expected to be completed by early 2021.

How will the community be kept informed?

We will keep the school and local community informed through project notifications, information booths, school newsletters, drop-in sessions and website updates. For up to date information please visit our [project page](#).

How can I get in touch?

If you would like to get in touch please contact us via the School Infrastructure email, schoolinfrastructure@det.nsw.edu.au, or call 1300 482 651.
